## New Products, Features on Display at i-movix

SprintCam® Vvs HD (Phantom® Powered) — the new ultra-slow-motion system for live HD broadcast production — operates at frame rates up to 2,700 fps in 1080i50 or up to 5,800 fps in 720p60 and provides instant replay at native HD resolution. Optimized for shoulder-mounted portable shooting, it includes a dual output, segmented memory, ramping of speed within a replay, and integration of both live- and replay-view on the viewfinder.

A new version of the SprintCam® V3 HD (Photron® Powered) is released with enhanced functionality including image capture at up to 2,000 fps and instant replay in high definition (1080i resolution). Enhanced features include: segmented memory, a more compact 2U camera control unit housing and a flexible EVS Multicam integration, just to name a few.
