

## RMV studio chooses NTP DAD AX24 digital audio converters

**B**enny Andersson's Riksmixningsverket (RMV) recording studio has chosen NTP DAD AX24 ultra-high-quality analog-to-digital and digital-to-analog converters for its newly completed premises on the Stockholm waterfront. Four NTP AX24 systems have been delivered. Each incorporates a PHD interface for Avid Pro Tools and will be used in conjunction with a 64 channel Neve 8068 analog mixing console.

## I-Movix is a smash hit with Broadcaster RTE based in Dublin

**A**fter successful trials RTE sports have requested that their facilities provider, Observe Outside Broadcasts, supply the I-Movix Sprintcam Vvs on their GAA Football / Hurling, Quarters, Semis and Finals. Steve Cotterill, MD of Editec, UK and Ireland sole distributor of I-Movix products commented "we are very pleased that RTE have been so impressed with the I-Movix system and hope that it's use will spread to other sports! There will be a system based in Ireland until further notice"

## Going Metallic with new HD-SDI & HDMI EVFs

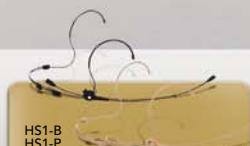

Leading EVF manufacturer CINEROID has added two new METAL EVFs to their range including a HDMI-A loop-through unit and the world's first HD-SDI in/out EVF. Featuring Cineroid's latest features, both metal cased units include an easier to use flip-up and removable loupe allowing the EVF to be used as a standalone mini-monitor. This new robust metal design is ideally suited to stand up to the rigours of any rental environment and the HD-SDI in/out version is a perfect partner for those wanting to use an EVF together with one of the new breed of 35mm Digital cameras such as the Sony F3 or Panasonic AF101 while recording via HD-SDI to an add-on data recorder.
